

EMAN KHALIQ

Full-Stack Developer | React, Next.js, FastAPI & PostgreSQL

Lahore, Pakistan | +92 347-1140455 | emanabdulkhaliq52@gmail.com | github.com/Emaankhaliq

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building end-to-end web applications using React, Next.js, FastAPI, and PostgreSQL. Proven ability to design responsive UIs, build secure REST APIs, implement JWT-based authentication, and architect relational data models. Strong foundation in RAG-powered services with vector databases (ChromaDB), clean API design, and modern frontend tooling (Tailwind CSS), with a track record of delivering multiple complete web platforms from concept to deployment.

TECHNICAL SKILLS

- Languages: JavaScript, Python, C++
- Frontend: React, Next.js, Tailwind CSS, HTML5, CSS3, Responsive Design
- Backend: FastAPI, REST API Design, SQLAlchemy ORM, JWT Authentication, bcrypt
- Databases: PostgreSQL, ChromaDB (vector DB), Data Modeling & ERD Design
- Tools: Git/GitHub, Postman
- Other: Agile/Scrum, UI/UX Principles, Technical Documentation

PROJECTS

CareerCure — AI Career Guidance Platform | Final Year Project 2025 - Present

- Built a full-stack platform spanning 6 modules — FastAPI (Python) backend with PostgreSQL, and a Next.js + Tailwind CSS frontend.
- Implemented a Retrieval-Augmented Generation (RAG) chatbot using ChromaDB vector storage and the Groq/OpenAI API for context-aware responses.
- Designed responsive UI components and connected them to secure, JWT-authenticated REST APIs.
- Documented system architecture (C4 model, ERD, data dictionary) across a 4-sprint Agile Scrum cycle.

TaskFlow — Full-Stack Task Manager | github.com/Emaankhaliq/taskflow 2023

- Built a secure task management app end-to-end: FastAPI backend with SQLAlchemy ORM, and a Next.js (App Router) + Tailwind CSS frontend.
- Designed a RESTful API with full CRUD operations, scoped per user, with JWT authentication and bcrypt password hashing.

Inventory Management System | Personal Project (C++) 03/2024 - 05/2024

- Built a CRUD-based inventory system with file handling for persistent storage and optimized search using core data structures.

Foodpanda Application | Personal Project (C++) 05/2024 - 07/2024

- Built the core order-processing logic for a console-based food ordering system, including restaurant listings, order management, and file-handled order history.

Smart Pill Manager | Personal Project (IoT) 11/2023 - 03/2024

- Implemented the control logic for an IoT-based pill dispenser (Arduino) with a companion Android app for dosage tracking.

WORK EXPERIENCE

Administrator | Mansour Al Mosaid, Remote 03/2024 - 09/2024

- Liaised directly with the Head of Operations to resolve day-to-day office needs, concerns, and operational issues.
- Managed and maintained accounts payable, employee benefits, inventory, and invoicing records using ERP software, ensuring accuracy and audit-ready organization.

Event Manager | University of Management and Technology 02/2024

- Planned and coordinated university sports events end-to-end, including scheduling and team registrations.
- Managed logistics, venue arrangements, and on-site operations for the event.
- Led a team to execute the event smoothly, ensuring strong participant engagement.

EDUCATION

BS Software Engineering | University of Management and Technology, Lahore 11/2022 - Present

Relevant Coursework: Database Systems, Operating Systems, Data Structures & Algorithms, Object-Oriented Programming, Software Engineering

SOFT SKILLS

Critical Thinking & Problem Solving, Team Management & Collaboration, Communication, Negotiation, Adaptability, Time Management, Attention to Detail, Creativity, IT Helpdesk Support

CERTIFICATIONS & COMMUNITY INVOLVEMENT

- Social Welfare Society (03/2024) — Organized welfare programs and social awareness campaigns.
- Food Nexus Society Certificate (05/2024) — Participated in workshops on food security, waste reduction, and logistics.
- Blood Donation Society Member (07/2024) — Organized blood donation drives with healthcare organizations.
